Feeding Leaflet 1

(Feeding: a Child's perspective)

Do we have a baby? How do we feed the baby? Is there a way?

Yes! We have a baby! How do we feed it?

We feed the baby with milk from the mother.

The baby drinks milk from a bottle.

How do we know when the baby needs more milk?

We know when the baby needs more milk because they cry.

How do we know if the bottle is too hot or too cold?

We check the bottle before feeding the baby.

How do we know if the baby is drinking enough milk?

We know if the baby is drinking enough milk by watching the baby's weight gain.

How do we know if the baby is sleeping well?

We know if the baby is sleeping well by observing the baby's feeding pattern.

If there is anything else we need to know, please ask.
